TRIP OVERVIEW

Kenya + Zanzibar is a bucket list trip for those with a desire to be fully immersed in Maasai culture, see native animals in their natural habitat on safari, and SCUBA dive in pristine waters. This expedition spans between mainland

Africa and the beachy Tanzanian island of Zanzibar. You'll get the chance to explore this part of Africa through immersive experiences, such as, engaging with Maasai people through song and dance! Moondance groups will explore conservancies home to monkeys, elephants,

DAY 3-5

Spend the next three days in the award-winning and pioneering Ol Pejeta Conservancy participating in wildlife conservation projects and local community projects. Your conservation projects will vary from learning about conservation and the history of the endangered species through wildlife game drives. You will go on field visits to livestock sections to understand the wildlife-integration program and cattle breeding within a wildlife conservancy, or understanding the anti-poaching dog units that include a demonstration of tracking and sniffing. Lastly, you'll have the opportunity to assist the community in the areas where they need the most help. These projects could be building a new school or toilet block, teaching English, playing sports, or tree planting in the grounds.
